Project Experience:

Confidential Client, AR Fire Investigation

Conducted an origin and cause investigation of a fire that occurred in a new piece of heavy farm equipment. Investigation resulted in the identification of manufacturing defect in affected piece of equipment that resulted in subrogation recovery.

Confidential Client, AR Fire Investigation

Conducted an origin and cause investigation of a fire that occurred in a large multi-family residential complex and resulted in the total loss of the structure. Managed multi-scene examinations with over 40 experts and council in attendance. Additional fires had occurred prior to the investigation and during the investigation on the property. The investigation resulted in determining that all 7 fires were intentional. A tenant interviewed during the neighborhood canvass was identified as a suspect and an arrest was made by authorities in connection with the incidents.

Confidential Client, AR Fire Investigation

Conducted an origin and cause investigation of a fire that occurred in large single-family residence. Investigation revealed that the cause was accidental and related to a rodent inside a control board for a geo-thermal heating and air unit.

Confidential Client, AR Fire Investigation

Conducted an origin and cause investigation of a fire that occurred in a large multi-family residential structure and resulted in the total loss of the structure. Investigation resulted in the determination that the fire was the result of improperly discarded smoking materials on a porch deck by a tenant and/or their guest.
