Christy.Petersohn@efiglobal.com

Professional Summary:

Ms. Petersohn is a mid-level Geologist with twelve years of experience in the environmental field with primary focus on preparing environmental risk evaluations on residential, commercial, and industrial properties for various national financial institutions, performing Phase I ESAs on a variety of property types, and completing technical reviews of Phase I ESAs.

Ms. Petersohn meets the definition of an Environmental Professional as defined in 312.10 of 40 CFR 312.

Project Experience:

Phase I ESAs – Nationwide

Performed and reviewed hundreds of environmental assessments at a variety of residential, commercial, and industrial properties across the nation at locations ranging from rural areas to large cities. Scope of work typically includes property assessment and determination of potential environmental concerns, historical and regulatory research due diligence and risk assessment in accordance with the latest ASTM standard.

Environmental Risk Evaluations – Nationwide

Prepared Environmental Risk Evaluations for a variety of commercial and industrial properties for various national financial institutions, credit unions, and the FDIC. Tasks performed included review of Phase I & II environmental reports, historical documentation, and regulatory records to evaluate risk in support of commercial and industrial loan applications.

Professional Experience:

Various Environmental Consulting Firms, Independent Consultant, 2015 – 2018
Sierra Piedmont, Project Manager II/Phase I ESA Subject Matter Expert, 2017
Partner Engineering & Science, Inc., Project Manager, 2015
