

### Professional Summary:

Investigator Andrew Comeau offers experience investigating over 500 fire/explosions in the field, adhering to the principles, guidelines and standards set forth in NFPA doctrines 921 & 1033. His origin and cause experience encompasses a wide array of industrial, commercial, residential, motor vehicle and heavy equipment incidents. Comeau possesses a comprehensive background in leadership, strategic planning, and critical thinking, derived from conducting global operations in support of Operation Enduring Freedom. He holds a Bachelor of Science from the University of New Haven, West Haven, CT's prestigious, Dr. Henry C. Lee School of Criminal Justice, in Fire Science with a concentration in Investigation, further supported by a minor in Criminal Justice. Inv. Comeau is certified as Fire and Explosion Investigator by the National Association of Fire Investigators, International.

### Areas of Expertise:

- Fire/Explosion Origin & Cause Investigation
- Liability Defense/Subrogation Recovery Strategy Development
- Large Loss/Complex Case Incident Scene Management
- Comprehensive Data Collection, Insights & Analysis

### Licenses and Certifications:

Certified Fire Investigator, International Association of Arson Investigators #03-0126190

Certified Fire and Explosion Investigator, National Association of Fire Investigators #240023-13676

Private Investigator, State of Texas, #01561318

### Project Experience:

#### **Travelers Insurance, Baltimore, MD Liability/Explosion**

Fire/explosion incident at coal transportation railway and shipping port facility in Baltimore, MD resulting in tens of millions of dollars in damages to the facility and local neighborhood. Conducted a dynamic origin and cause investigation using an in-depth knowledge of NFPA 921, resulting in the successful orchestration of a release of potential liability for the insured.

#### **Travelers Insurance, Germantown, MD Incendiary/Fire**

Conducted a robust O&C investigation of a residential fire scene. Identified suspicious indicators of potential insured involvement in the ignition of the fire. Rigorous scene examination, interviewing and data analysis led to the conclusive determination of an intentionally set fire, successful prosecution, and withdrawal of the property claim valued above \$500K.

### **Travelers Insurance, Cadillac, MI Subrogation/Fire**

Investigated a multi-million-dollar electrical fire at an insured's injection molding manufacturing facility. Rapid cross-country response allowed for identification of the root cause of the fire's ignition quickly and decisively. Clear communication of opinion and findings in this instance saved the carrier and their subrogation component valuable resources from flawed pursuit of a recovery which was ultimately unsupported by the facts. Additionally, investigative findings were articulated in a manner dually practical for use in carrier's future risk assessment underwriting.

### **Court Qualifications/ Depositions:**

Expert Witness Courtroom Testimony Training, Fort Mill, SC, IAAI, 2019

### **Professional Experience:**

EFI Global, Senior Fire Investigator, 2023 – Present  
Travelers Insurance, Fire Investigator, 2020 – 2023  
Travelers Insurance, Fire Investigative Specialist, 2018 – 2020  
United States Army, Forward Observer, 2012-2015

### **Specialized Education:**

NFA – Foundational Concepts of Chemistry, 2017  
IAFC – Hydrogen Response Considerations, 2017
