### Professional Summary:

Mr. Sanchez has just under a year of experience as an Environmental Field Technician in which he does field work consisting of Soil Sampling oversight, and Soot and Smoke inspections. Mr. Sanchez is a CDPH certified Lead Sampling Technician. He has worked closely under the regulations of the Department of Toxic Substances Control to deliver the best possible service to the city of Los Angeles and surrounding areas.

### Area of Expertise:

- Soil Sampling Oversight
- Soot and Smoke Inspections

### Licenses and Certifications:

CDPH Lead Sampling Technician, NATEC International, CA, LRC-0011243

OSHA 40- Hour HAZWOPER Training, Safety Unlimited, CA, #2304281469424

OSHA 10-Hour Construction Safety, Advance Online Solutions, CA, 6745\_1967948

### Project Experience:

#### **EFI Global, Vernon , CA Exide Residential Cleanup**

Project lead by the Department of Toxic Substances Control to remove contaminated soil around the city of Vernon, and neighboring cities due to a former battery plant known as Exide. Lead a team that visited hundreds of residential properties to collect and sample soil as well as test for lead-based paint using a Handheld XRF analyzer.

#### **EFI Global, Inglewood, CA Soot and Smoke Sampling**

Visited residential properties affected by fires in or around the property to sample for soot and smoke damage. Collected both tape lift and wipe samples to determine how much contamination was found in affected areas.

### Professional Experience:

EFI Global, Environmental Field Technician, 2023- Present

**Education:**

Bachelor's Degree, Biology, California State University Channel Islands, CA, 2023
