### Professional Summary:

Passionate and versatile environmental technician servicing multiple types of projects in the environmental sector that allows me to not only conduct IAQ business, but also soil and groundwater activities as well. Creative as well as disciplined, showcases a portfolio variety.

### Licenses and Certifications:

Asbestos Inspector, Louisiana Department of Environmental Quality, LA, License #SI235889

Asbestos Contractor/Supervisor, Louisiana Department of Environmental Quality, LA, License #SS235889

Asbestos Inspector, Mississippi Department of Environmental Quality, MS

Asbestos Inspector, University of Alabama, AL, License #AIN09221A1AB688

### Project Experience:

#### **EFI Global, Lake Charles, LA** **Phase II ESA / Remediation Oversight**

Conduct soil and groundwater sampling of former UST site to determine extent of contamination via soil borings and temporary well sampling. Conduct remediation oversight to remove impacted soil.

#### **EFI Global, Baton Rouge, LA** **Fire Investigation / Damage Mapping**

Conduct mapping of units due to fire to include soot damages, water, mold, and preexisting conditions. Conduct sampling of ACBM in units.

#### **EFI Global, New Orleans, LA** **Industrial Hygiene**

Conduct initial inspection of building to determine causes of mold throughout. Provide removal and cleaning protocols, as well as facilitate post remediation verification.

### Professional Experience:
